

Representatives of Commercial & Residential Building Products

### Expertise & Knowledge

At Sierra Coast Products our professionals have expertise in all types of commercial and residential roofing and waterproofing products, sustainable construction practices and product installation.

In addition to marketing and sales support, we act as technical field consultants, provide training, product guidance, conduct roof evaluations, offer design assistance and develop specifications.

We educate on how to utilize new products and systems to achieve expected results and maximize return on investment.

Our dedication to providing high quality products, the best performance solutions and service excellence, reflect our commitment to your success.

Representatives of Commercial & Residential Building Products

### Commitment

We strive for professionalism and consistent communication in every aspect of the services we provide.

Understanding our customers have many choices, it is our goal to build long lasting relationships based on integrity and mutual respect with our customers. To exceed expectations by providing superior product offerings and services of exceptional value, allowing our customers to gain a competitive advantage.

### Service

We try to anticipate specific needs and meet them with products and services that achieve your goals. And detect issues that could lead to premature failure. We collaborate with our customers and work with our contractors to ensure quality installations are built for longevity.

Partnering with our Manufacturers, Distributors, Contractors and the Design Community, we deliver environmentally intelligent solutions that maximize life cycle, control costs, increase profitability and promote sustainable construction.

As sales representatives and technical consultants, we introduce the latest technologies and provide guidance regarding the products best suited to your projects. With our experience, we are able to provide specification support to deliver product systems that are the right choice for long lasting results.

We understand and appreciate the many challenges our customers face regarding accuracy, complexity and deadlines. Our team offers the technical support to meet project demands, not only with the common issues, but more unique problems.

### Customer Support

**Distribution** - Is truly an extension of the Sierra Coast Products sales team. We have a close relationship with our distributors and are committed to supporting their sales and business growth.

**Contractors** - We provide on-site support, product knowledge, installation training and help to develop specifications best suited to project needs.

**Manufacturers** - We represent premium quality brands and connect those products to the end user through distribution partners throughout the country. We aid the manufacturer in brand development by providing product education and sales support.

**Architects** - We work with architects to ensure the proper systems are included in master specifications to satisfy project requirements. With our product knowledge, we present new products and provide technical support to introduce new technologies.

**Owners** - At Sierra Coast Products, we have expertise in the commercial industry and specialize in assisting the building owner with sustainable product selections that provide long-term performance and maximize return on investment, while reducing building operating costs. Our team is knowledgeable in roof inspections, evaluations and product solutions that minimize roof failures and best protect assets.

Our team also has experience with residential properties and can assist the homeowner and contractor with residential product selections to protect and beautify the home and achieve desired aesthetics.
