

TRUE ROOF RATER

Easy. Convenient. Efficient.

“The simple way to create professional looking proposals.”

Versico Roofing Systems offers a tablet app to help you put professional proposals in your customers' hands faster and more easily than ever. True Roof Rater has everything you need to build your business contained in a single app and is also available on your desktop. It is customizable and professional rooftop evaluation software perfect for developing quick and easy rooftop maintenance and repair proposals.

TRUE ROOF RATER

Demonstrate Your Added Value with True Roof Rater

True Roof Rater is an easy-to-use tablet or desktop application that allows you to create professional proposal reports that can be used to develop relationships with building owners. The reports utilize pre-defined terminology and definition to demonstrate credibility and technical value. True Roof Rater is available now in the App Store® and on Google Play™, or visit www.trueroofrater.com to create reports on your desktop.

Start the Conversation with True Roof Rater

True Roof Rater features include:

- Web-enabled GPS and mapping technology that provides an immediate view of the roof
- Easy-to-use drawing tools to paint a complete picture
- Adding photos instantly from your mobile device with a few easy clicks
- Pre-prepared smart text increases efficiencies
- Highlighting details and deficiencies and conducting moisture surveys
- Instant delivery of the proposal from the app or save it to your account
